

MEGAN BONNELL

Megan Bonnell is an impressionist. Her melodies and piano compositions create a dream-like image of moments that once were. Her lyrics are the warm, pastel colors of the scene itself that tell the listener that they too, were there. She unifies folk and pop with her catchy, yet honest songs about nature, relationships, and love. Her lyrics are sometimes dark, sometimes playful, but her voice ever captivating with its ethereal beauty.

Recently signed to Nevado Records & Management (*Bahamas, Yukon Blonde, Golden Dogs*), her debut EP titled **MAPS** will be released around the world on June 21st, 2011. The four songs featured on the release are geographically-themed; The lyrics tell stories both real and imagined; The music transports the listener. Mixed by Chris Shaw (Bob Dylan, Wilco) and mastered by Phil Bova (Feist, Bahamas, Zeus).

The first single is the track titled **South Korea** and it was released in May 2011 alongside an ethereal and surreal video directed by Toronto artist **Joy Broadbent**.
